## NEW IDEA Spreads 7 Feet--Across 3 Corn Rows

The wide spreading New Idea saves you half a mile of travel per acre. It spreads beyond the wagon tracks and you don't have to drive over the spread manure. It spreads uniformly and the spread can be varied 3, 5, 6, 9, 12, 15, 18 loads per acre merely by pushing a lever.

The double cylinder and distributor take two whorls at the manure. Every particle goes onto the ground—none left to freeze or rot. There is no danger of clogging so the New Idea can be loaded as high as the ordinary wagon box. Strong chain conveyor brings the manure unloading to cylinders. Cannot slip from under load and will not race going up hill.

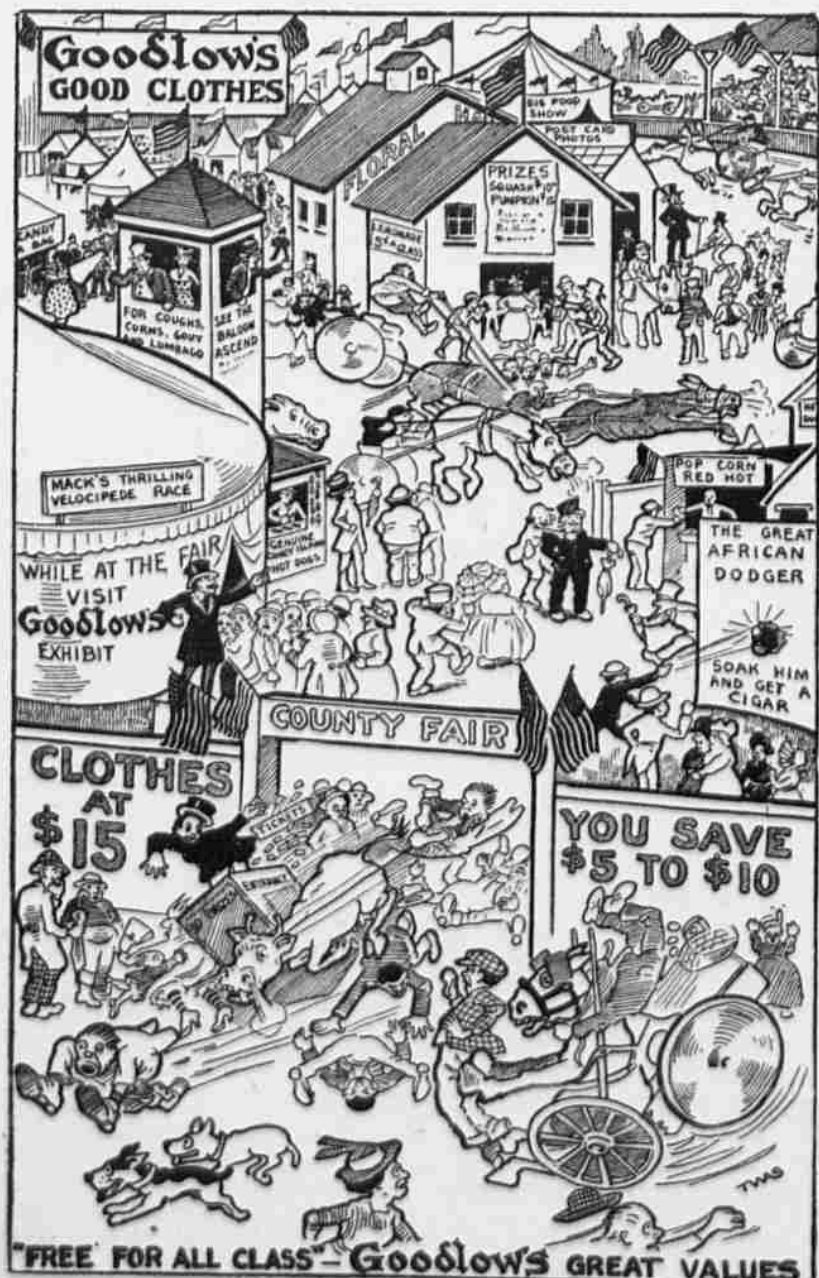

Chain drive—no gears to freeze, break or strip. Power to conveyor and spreader mechanism is derived direct from rear axle—no side strain or lost power.

The New Idea is made by spreader specialists with more than 16 years experience, who have the confidence to back their machine with a 1 year guarantee on workmanship and material. We unhesitatingly recommend it.

### MAP SHOWS LOCATION OF OFFENSIVE ON ISONZO

SCALE OF MILES

### WHERE ITALIANS ADVANCE

Some of the heaviest fighting in Italy's new offensive against the Austrians is taking place on the Isonzo front, which is shown in the map.

North of Gorizia, which the Italians have held for some time, strong blows have been struck, and only seven and a half miles from the city the Italians have crossed the Isonzo in their effort to break the enemy's line that runs east of Gorizia and thus pave the way for an advance from that direction on Trieste. Still further to the north in the Julian Alps other gains have been made.

### A GENERAL SURVEY OF THE WAR

The Italian troops have made further advances on the Isonzo front north of Gorizia, closely pursuing the Austrians, the war office in Rome announces. Austrian counter attacks on the Carso were repulsed. This number of prisoners has been increased to more than 23,600, in addition to which a great amount of booty has been captured. It is estimated that the Austrians have suffered a loss of 100,000 men.

A French blow on the right bank of the Meuse in the Verdun sector netted a gain of about two-thirds of a mile on a front of two miles and a half giving the French possession of the Fosses and Beaumont woods and bringing them to the outskirts of the village of Beaumont.

The official report from the war office also records artillery fighting of great violence around Hill 304 and the left bank of the Meuse.

Twenty-one British tanks were destroyed by German troops when they vainly sought Wednesday to advance south of the Ypres-Menin road, the Berlin official statement declared.

A statement issued in Berlin regarding the attack by airplanes on the northern coast of England says bombs were dropped with good effect on British naval vessels.

The British, French, Italian and Russian have captured 167,780 war prisoners since April 9, when the 1917 campaign opened, according to a statement issued by the British war department.

### NO CHANGE EFFECTED IN STATUS OF MARRIED MEN

Matter of Dependency is One For Exemption Boards to Consider—President's Views Same.

Married men are not to be exempted from the draft war is any appreciable change in the war department's policy to follow President Wilson's recently expressed views that "married men should be exempted as far as possible."

Following a conference between Secretary of War Baker and Provost Marshal General Crowder it was announced that local boards should be guided by a bulletin which the war department made public. This bulletin incorporates the views of President Wilson as expressed in his letter to Secretary Baker, but likewise outlines the legal status of the case of married men and makes plain that the law must be followed.

The provost marshal general, however, gives the local boards the suggestions made by the president and also clears up some legal points involved in interpretation of the regulations. But the status of married men remains just where it was before the president wrote his letter to the war department, and General Crowder's rulings in no sense have been changed materially.

Married men with bona fide dependents will be discharged from the draft, as was the case when the regulations first went into effect. But it is made clear that married men under the following conditions may be drafted:

"If their so-called dependents are not actually dependent upon their labor for support."

"If they have other means of supporting dependents which are not affected by their absence."

Sometimes a woman is so hard up for something to boast of the brain on her husband's complexion.

## ITALIAN TROOPS MOVE FORWARD

Further Progress Near Gorizia;  
Austrians Admit Repulses

### TRIESTE BEING EVACUATED

Civilian Population Moving Out of Queen City of Adriatic—British Advance on 2,000-Yard Front in Flanders—French Hold Verdun Gains Against All Counter Attacks—Berlin Claims Successes.

Rome, Aug. 29.—The Italians made further progress on the Bainsizza plateau, on the front north of Gorizia, the war office announces. The Austrians made violent counter attacks, but failed to recover positions taken by the Italians.

Austrians Admit Losses.

Vienna (Via London), Aug. 29.—Monte Santo, on the Isonzo front, was evacuated by the Austro-Hungarian forces Friday night without fighting, army headquarters announced, the Italians occupying it. Italian attacks Saturday in the San Gabriele district, although costing the attacking forces heavily, failed to result in a piercing of the Austro-Hungarian front, it is declared.

Trieste Being Evacuated.

Washington, Aug. 29.—Trieste is being evacuated. Its civilian population is deserting the town, at the order of Austrian high command, according to the Zurich correspondent of Corriere d'Italia, whose dispatches were cabled to the Italian embassy here.

Most of the citizens have left, taking with them "all articles of value," the cable stated. They sought refuge in the interior of Austria.

Hourly the Italian offensive becomes more certain of a military decision, cable messages say. The Austrian troops in the sector dominated by Monte Santo are reported so far ahead of the Italians in their retreat that no trace of them can be found, except stacks of abandoned munitions, guns and food. From Monte Santo many square miles of territory can be reached by the Italian artillery. No Austrian positions in this zone can be held more than a few hours.

Monte Gabriele and Monte Daniele are still held by the Austrians, but are isolated. No food or munition can reach the beleaguered troops. The fall of these mountain forts is a matter of days, the cables say.

Emperor Charles spent the entire day of Aug. 22 at the front with the Austrian high command and General Borevich. He saw Tarnovo captured and one fort on the Carso destroyed by the Italian bombardment. He left while the Italian troops were charging to victory.

Austrian papers admit the precarious position of their troops. The Lokal Anzeiger correspondent makes no effort to conceal the important advantages gained by the Italians.

British Make Advance.

London, Aug. 29.—As a result of a British attack on the Flanders front the British lines have been advanced along a front of more than 2,000 yards astride the St. Julien-Poelcapelle road, the war office announced.

Artillery Fight at Verdun.

Paris, Aug. 29.—The French official report on the progress of hostilities refers to artillery activity on the Calonne plateau and says French troops penetrated German trenches at Butte de Souain and took some prisoners near Arracourt.

Berlin Claims Successes.

Berlin, Aug. 29.—The British made only insignificant gains northwest of Frezenberg in their attack on the Flanders front, army headquarters announced.

### WANT STUDENTS BACK

Navy Department Asked to Allow Men to Return to College.

Boston, Aug. 29.—A department of the navy ruling permitting college students who enlisted in the naval reserve to return to their studies in the fall was received at the navy yard.

Upon written request of parents and college authorities these men may be placed on the inactive list subject, however, to call, in case of emergency.

Wilson Appeals to Boys.

Philadelphia, Aug. 29.—President Wilson has appealed to the boys of Pennsylvania to give patriotic support to America's overseas army by filing up the state division of the United States Boys' Working Reserve. The reserve, composed of boys sixteen to twenty-one years old, is being recruited to supply workers for emergency service in various employments affected by the drafting of men for military service.

B. R. and P. Employees on Strike.

Dubois, Pa., Aug. 29.—Eight hundred employees in the engineering department of the Buffalo, Rochester and Pittsburgh railroad, scattered all over the system, are on strike. Officials refused to grant them better working conditions, increase in wages and recognition of their organization. The men presented their demands a month ago.
